

**STEP 3**

Insert the T-nuts into the slot in the rails and position them to roughly match the holes of your top-plate.

**STEP 4**

Position your top-plate, screw and tighten your screws.

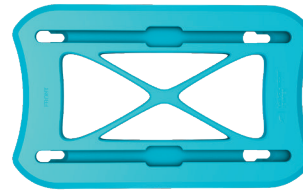

The installation is complete.

## INSTALLER LE FOIL AVEC LE '4-PT FOIL MOUNT ADAPTER'

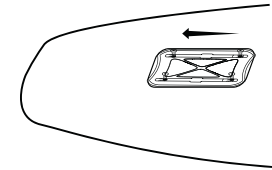

### ÉTAPE 1

Vissez à la main (quelques tours seulement) les 4 vis M6-15mm reçues avec votre Rocket air.

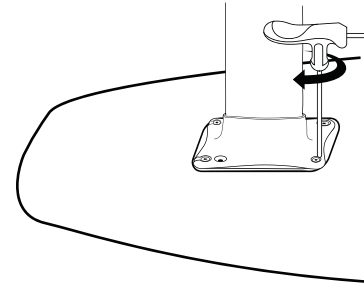

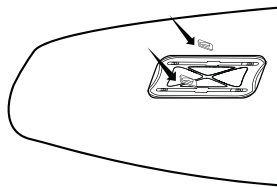

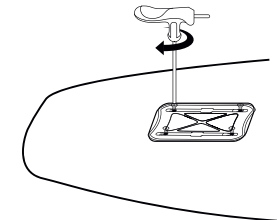

### ÉTAPE 2

Positionnez votre Foil Mount Adapter sur les vis, en faisant bien attention d'avoir le marquage « Front » vers l'avant de la planche. Glissez le Foil Mount Adapter vers l'arrière jusqu'à la butée. Vissez et serrez les 4x M6 avec votre outil Torx.

**ÉTAPE 3** Insérez les T-nuts dans la fente des rails et positionnez les pour correspondre grossièrement à l'empreinte de votre top-plate.

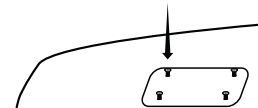

### ÉTAPE 4

Positionnez votre top-plate, vissez et serrez vos vis.

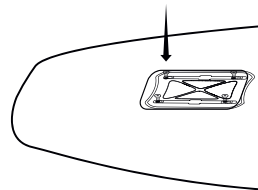

L'installation est terminée.

## INSTALL THE FOIL WITH '4-PT FOIL MOUNT ADAPTER'

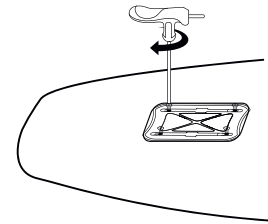

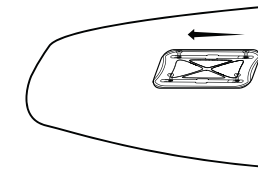

### STEP 1

Tighten by hand (only a few turns) the 4 M6-15mm screws received with your Rocket air.

### STEP 2

Position your Foil Mount Adapter on the screws, making sure to have the «Front» marking towards the front of the board. Slide the Foil Mount Adapter back until it stops. Screw and tighten the 4x M6 with your Torx tool.
